## **ACCURO HEALTHCARE SOLUTIONS ANNOUNCES NEW CHIEF TECHNOLOGY OFFICER**

**DALLAS (Nov. 13, 2006)** – Ely Labovitz has been promoted to chief technology officer for Accuro Healthcare Solutions, Inc. (Accuro), an industry leader in revenue management solutions.

Labovitz’s new responsibilities will include product integration and infrastructure strategies. He will also evaluate and recommend technology solutions for Accuro.

Accuro is the industry leader in revenue management solutions with three fully integrated service lines to help healthcare providers streamline revenue management, increase patient satisfaction and optimize operating margins.

“Ely’s 18-year tenure in developing and architecting Web-based, desktop and enterprise software applications has been vital in forming Accuro’s strategic direction,” said Brent McCarty, president and COO of Accuro. “His vision for the Accuro product suite and the integration of our revenue intelligence, revenue accuracy and revenue enhancement service lines will help providers improve financial performance throughout the revenue cycle.”

Previously, Labovitz served as chief technology officer of Innovative Healthcare Solutions (IHS), an Accuro company, overseeing all software development activities. He was also responsible for the firm’s data center, networking and communications.

**- MORE -**

Labovitz received a bachelor's degree in computer science from Yeshiva University in New York, and has completed master's courses in computer science from Columbia University with concentrations in algorithm analysis, object oriented development and computer architecture.

**About Accuro**

Accuro is the industry leader in revenue management solutions to help providers achieve optimal financial results in an era of ever-diminishing resources and expanding regulatory complexities. The company's Web-based applications help maintain an accurate chargemaster to improve reimbursement and ensure compliance; calculate and manage net revenue; address transparent pricing issues with rational, yet optimum prices; monitor and manage payor performance, and deliver pioneering business intelligence and analytics, including denials management.
